A note from our Lt. Governor Rex: FEBRUARY DCM: A very important meeting. It will be 2 hours long (9-11). We will have short business and raffle time, and then our Area Director, Stephanie Ursini-Bennett, is going to present a program on membership recruiting.

This is important for every Club to attend, but especially important for those Clubs that are below charter strength. Therefore. EVERY Club should have 2 or more members at this meeting. **I will assume that if you do not have members attend this, you are not serious about increasing your Club's membership.**

ELIMINATE
maternal/neonatal tetanus

Maternal/neonatal tetanus is caused by bacteria that gain entry into the body during the birthing process due to contaminated and unsafe birthing facilities and practices. Everyone bring in your jars (no matter how full). Put your name on your jar so Dennis can get them back to the right member. Thanks.

- Riddle me this -

This is an unusual paragraph. I'm curious as to just how quickly you can find out what is so unusual about it. It looks so ordinary and plain that you would think nothing was wrong with it. In fact, nothing is wrong with it! It is highly unusual though. Study it and think about it, but you still may not find anything odd. But if you work at it a bit, you might find out. Try to do so without any coaching!
