- Riddle me this -

1. A murderer is condemned to death. He has to choose between three rooms. The first is full of raging fires, the second is full of assassins with loaded guns, and the third is full of lions that haven't eaten in 3 years. Which room is safest for him?

2. A woman shoots her husband. Then she holds him under water for over 5 minutes. Finally, she hangs him. But 5 minutes later they both go out together and enjoy a wonderful dinner together. How can this be?

3. What is black when you buy it, red when you use it, and gray when you throw it away?

4. Can you name three consecutive days without using the words Wednesday, Friday, or Sunday?

1. The third room. Lions that haven't eaten in three years are dead. That one was easy, right? 2. The woman was a photographer. She shot a picture of her husband developed it, and hung it up to dry (short: held under water and developed). 3. Charcoal, as it is used in barbecuing. 4. Sure you can name three consecutive days, yesterday, today, and tomorrow!
