Did you hear the one about the man who opened a dry-cleaning business next door to the convent?

He knocked on the door and asked the Mother Superior if she had any dirty habits.

How do you drive an engineer completely insane?

Tie him to a chair, stand in front of him, and fold up a road map the wrong way.

What is the definition of an engineer?

Someone who solves a problem you didn't know you had, in a way you don't understand.

If you do not recognize someone at the meeting go greet them. They are someone you need to meet.
