A Joke

A young lady bought two horses and couldn't tell them apart. A neighbor suggested that she cut off the tail of one horse, which worked great until the other horse got his tail caught in a bush, and looked exactly like the other horse's tail. The young lady was stuck again. The neighbor then suggested that she notch the ear of one horse, which worked fine until the other horse caught his ear on a barbed wire fence. Once again, she couldn't tell the two horses apart. The neighbor then suggested that she measure the horses for height. When she did that, the blonde was very pleased to find that the white horse was 2 inches taller than the black one.
